HARDING GRAVELLY ILL, FIGHTING FOR LIFE

PNEUMONIA HAS DEVELOPED, ADDS TO COMPLICATIONS

FIVE PHYSICIANS AT BEDSIDE OF PRESIDENT MARK PROGRESS OF THE DISEASE

BRONCHO-PNEUMONIA HAS DEVELOPED IN THE RIGHT LUNG OF THE PRESIDENT

(By United Press)
Palace Hotel, San Francisco, July 31.—President Harding lay gravely ill today fighting for life against new complications, including a touch of pneumonia that set in during the night.

At 4 o'clock this morning all was silent in his sick chamber, and to those waiting anxiously outside was taken as a hopeful sign that the president might be sleeping, gaining strength for the brave struggle he is making against death.

The president's five physicians gathered in his sick room early today to mark the progress of the battle.

From their morning examination of the president and subsequent consultation, word was expected which would tell a waiting nation whether Mr. Harding will, aided by the agencies of science, was winning.

A bulletin on the president's condition was promised as early as conditions in the sick room would permit.

This bulletin was expected to show whether the broncho-pneumonia condition which developed in the president's right lung with alarming suddenness last night had subsided or progressed unfavorably for the patient. It is also expected to confirm whether Mr. Harding's heart, already overtaxed, is standing the task of combatting poisons in the digestive system and congestion in the lungs.

Doctors in All Night Vigil
All through the night Dr. C. E. Sawyer, Dr. Joel T. Boone and Dr. Hubert Work, the three physicians with the presidential party, alternated in keeping watch over him.

Many other watchers, made up of members of the party who accompanied the president on his trip, which was so suddenly halted by his illness awaited outside the chamber.

Everyone realized last night that Mr. Harding was facing a desperate fight for life and that it was mainly a fight of his will, for his body was too weak to throw off entirely the creeping poison.

Condition is Grave
Announcement that Mr. Harding's condition was grave was made by the five attending physicians in an official bulletin, following an examination and consultation last night. The bulletin disclosed the fact that an X-ray examination, made earlier in the evening, had shown Mr. Harding to be suffering from broncho-pneumonia of the right lung.

The bulletin read as follows:
"Definite central patches of broncho-pneumonia have developed in the right lung, as indicated clinically and by X-ray. Nourishment is being taken regularly, and abdominal symptoms are less noticeable. While his condition is grave, he is temperamentally well adapted to make a strong fight against the infection."

Dr. Sawyer's Statement
The previous report referred to an official bulletin issued at 5:30 p. m. in which Mr. Harding's condition was called "serious." About 7:30 last night Dr. Sawyer, his chief physician, in a frank statement, said that almost any sort of complication was possible. He said pneumonia infection was among the possibilities, but that he could not class it. He said an x-ray examination had been made to determine just what developments were possible and to check up on clinical observations made during the day relative to the condition of the resistance of the heart. Dr. Sawyer said at that time that the

COW AND CALF IN DETROIT'S ZOO

(By United Press)
Detroit, July 31.—An ordinary cow and calf are the prize exhibits at the Detroit zoo.

The cow and calf were given honored pens in the zoo when 1,750 children in three schools here declared they had never seen an honest-to-goodness milk cow. When news that so many children had never seen a cow was published, a kindly dairyman presented "Princess" and her month-old calf, both Holsteins, to the city. Seeing that each student visited the zoo for a glimpse of the cow and calf is one of the duties of Detroit's school teachers.

STATE MAY ASK FOR MORE IMMIGRANTS

MINNESOTA FARM BUREAU FEDERATION RECOMMENDS ENTRY OF RURAL LABORERS

Minneapolis, July 31.—Modified immigration restriction which would permit the entry into the United States of a greater number of farmers and farm laborers, a step recommended to President Harding recently by the Minnesota Farm Bureau federation, probably will be urged upon congress next winter by the American Farm Bureau federation, according to telegraphic dispatches from Washington, D. C.

Acting upon information that 40,000 trained farmers and farm laborers now in Jugo-Slavia desired to come to America to work on farms, but were held back by immigration laws, the Minnesota Farm Bureau federation recently petitioned President Harding, and the secretaries of labor, agriculture and commerce, to arrange for immigration to this country of these 40,000 men.

The recommendation of the Minnesota bureau has been forwarded to other state bureaus for consideration, and will be voted upon at the American Farm Bureau federation meeting at Chicago in December.

"Minnesota, and other agricultural states, need good farmers and farm laborers," J. S. Jones, secretary of the Minnesota federation said. "The recommendation made to officials in Washington was based upon information that thousands of desirable men in Europe who want to come over here to work on farms, were barred because of immigration laws."

STEEL CORPORATION QUARTERLY DIVIDEND

(By United Press)
New York, July 31.—The United States Steel Corporation has declared its regular quarterly dividends of 1 1/4 per cent on common stock and 1 3/4 on preferred stock. It was announced that for July the net after taxes was \$47,858,000 against \$34,750,000 for the previous quarter and \$27,286,000 at the second quarter of 1922.

Firemen Scour Tallest Building; False Alarm

New York, July 31.—Firemen toured miles of corridors on the 52 floors of the Woolworth building, seeking a blaze that did not exist. Footsore and weary, they at last reported "false alarm" and went back to their stations to rest. An automatic alarm in the building, which went off accidentally, called the department out.

GIRL STEALS NICKEL; GETS 5 YEAR SENTENCE

New York, July 31.—Ross Kramer, aged 30, was sentenced to serve five years in prison for stealing five cents. The girl stole a purse from a shop girl. The purse contained a nickel. Two previous convictions for similar offenses were cited by Judge Baker when he imposed the sentence.

SON OF MINISTER IN NEBRASKA JAIL, JUDGE WIRES DAD

"I GOT INTO IT AND I'LL TAKE MY MEDICINE", SAID WM. B. RILEY, JR., 17

SON OF PASTOR OF FIRST BAPTIST CHURCH, MILL CITY, PLEADS GUILTY

(By United Press)
Beatrice, Neb., July 31.—William B. Riley, Jr., 17, son of Rev. William B. Riley, pastor of the First Baptist church of Minneapolis, has wired his father it will not be necessary for him to come to his aid.

"I got into it, and I'll take my medicine, he said as he waited in his cell in the Gage county jail reviewing his experiences of the past few weeks.

The father, learning of the son's plight, wired District Judge L. W. Colby to advise him when his boy would be given his preliminary hearing, and asked the judge to consider the youthfulness and past life of his son. The judge wired it would not be necessary for him to come to Beatrice. His message came too late.

Young Riley had already pleaded guilty to stealing an automobile. He had also deserted from the United States army.

Judge Colby, one-time soldier, did not pass sentence on the young man but instructed the county attorney to get in touch with army officials and see if Riley could be reinstated. Reference to the lad's mother brought tears to his eyes. He told police he was sorry for her sake. Defiance broke out, however, at mention of his father.

"He didn't let me dance, and only gave me enough money to attend school. I'm only human, and I like to have some fun like other boys, but he didn't approve of anything I did."

OIL REFINERS IN CONFERENCE

(By United Press)
Kansas City, Mo., July 31.—Officials of the Mid-Continental Oil Refiners went into conference here today to consider plans for suspension of oil production for a limited period. The present oversupply can only be consumed by a suspension of production, leaders declared.

Plans to close refineries during August were made at the gathering in Chicago last week.

RAINS ARE AIDING NORTHWEST CROPS

St. Paul, July 31.—Rains the past week have aided crops, according to the weekly report of the Minnesota Crop Reporting service today.

"The corn situation is generally relieved," said the report. Harvesting of all small grains is quite general."

Olga Samarov, Noted Pianist, Gets Divorce

Philadelphia, July 31.—Olga Samarov, noted pianist, yesterday was granted a divorce from Leopold Stokowski, conductor of the Philadelphia orchestra. Domestic vexations caused by temperamental differences were given as the cause of the divorce suit. Stokowski is in Paris.

Honesty and Thirst

Chicago (United Press).—"A man may drink and still be honest," it seems," Judge Peter H. Schwaba said in a Chicago police court. The comment was offered when Judge Schwaba discharged Mike Trotter for drunkenness, after he found the man had staged his carousal on a \$25 reward for returning a diamond-studded municipal judge's star that the official had lost.

* 27 REPORTED KILLED, 25 OTHERS BADLY HURT IN COLLISION *

(By United Press)
Dublin, July 31.—Twenty-seven persons were reported killed and 25 others fatally injured in a collision of two passenger trains near Kriesen. Several coaches were smashed when they overturned, according to advices from Hannover.

N. P. TO ASK LOWER FREIGHT RATES

ROAD TO FILE REQUEST TO REDUCE COSTS IN THROUGH BUSINESS TO COAST

St. Paul, July 31.—Reduced freight rates on through business to the Pacific coast to produce more volume and higher net revenue is to be asked by the Northern Pacific road as a means of obtaining relief for northwest railroads, Charles Donnelly, president, said yesterday.

"The Northern Pacific is about to file a renewal of the application for permission to establish rates which will make it possible for the railroads to compete with vessel lines," Mr. Donnelly said. "This seems to be the advisable way to allow the railroads to participate in a part of the business which is now going through the canal."

"Such action would be of great benefit to the railroads and could not in any way prejudice any communities in the territory reached by the transcontinental lines serving the Pacific coast."

ST. CLOUD HOSPITAL WORK TO BE RUSHED

WORK ON NEW VETERANS PLANT HELD UP, SAYS PREUS

St. Paul, July 31.—Construction of the St. Cloud veterans hospital will be rushed, but Minnesota must wait at least three weeks before it can be known whether the state is to have a 500 bed tubercular hospital for disabled veterans, Governor J. A. O. Preus said yesterday on his return from Washington, where he conferred with General Frank T. Hines, director of the Veterans bureau.

General Hines definitely promised that the St. Cloud hospital will be completed as soon as possible, the governor said. He conferred with Adjutant General W. F. Rhinow on plans for data to be put before General Hines at the end of a national survey, planned to be finished in three weeks.

"The report that I am considering taking a position with a life insurance company now is not true," Governor Preus said. "I am going to serve my term as governor. Beyond that, I have made no plans."

3 GIRLS AND 11 BOYS ARRESTED IN RAID

ALL BUT TWO PLEAD GUILTY AFTER BEING TAKEN IN MINNETONKA COTTAGE

Minneapolis, July 31.—Three girls, ranging in age from 14 to 17 years, and 11 boys, 16 to 20, were arrested early yesterday in a cottage at Seaton, near Mound, Lake Minnetonka, when Deputy Sheriff George Strand raided the place, on complaints of neighbors.

Brought into court at Wayzata, before Justice of the Peace R. E. Wakefield, the girls and nine of the boys pleaded guilty to a charge of disorderly conduct. The boys were fined \$5 and costs, excepting the two who pleaded not guilty, who will be tried Aug. 6. The girls were sentenced to 30 days in jail and placed on probation.

COUNCIL SAYS MISS NEWGARD IS BEST COOK ON EARTH

"COUNCIL DIDN'T EAT ANY MORE THAN THE BOYS HERE" SAID SCOUTMASTER STIMBLE

CAMP INSPECTED AFTER WHICH COUNCIL HAD AN OLYMPIC ATHLETIC CONTEST

The Boy Scout Council of Crow Wing county on Monday evening enjoyed what its members said was the finest mulligan dinner ever served and the cook, Miss Ella Newgard, was voted the best on earth and heard every man on the council sound her praises.

Here is the menu discussed on the banks of North Long lake: Soup, celery, corned beef, veal, cabbage, beans, tomatoes, coffee, cup cakes, muffins, ice cream, cake with an inch layer of frosting.

It was not a 100 per cent attendance of the council, and the percentage lacking will regret missing that dinner. Grace was said by Rev. E. A. Cooke. Assisting in serving the dinner were Mrs. Arthur L. Koop and Miss Maude Williams, and they had supervision over the corps of Boy Scouts who did their duty like trained waiters. Assistant chef was Bob Duerr and he comes in too for some of the glory of that wonderful dinner.

"And do you eat like this every day?" the whole council asked of Scoutmaster Stimble. "We feed the boys the best we have and they eat every bit as much as you gentlemen," rejoined the scoutmaster.

Invitations Sent Out

The invitations to the dinner were sent out by President Carl Zapffe and addressed to these members of the council: Carl Zapffe, W. A. Erickson, W. A. M. Johnstone, John A. Hoffbauer, John F. Woodhead, Dr. C. G. Nordin, E. W. Schmitt, A. A. Gierlet, Rev. O. S. Winther, Supt. W. C. Cobb, E. J. Quinn, A. A. Anderson, W. H. Gemmell, Albert O. Anderson, Dr. J. A. Thabes, John Holvick, George D. LaBar, Rev. L. F. Strothman, George Tracy, Rev. E. A. Cooke, C. E. Lammon, Dr. R. A. Belse, S. R. Adair, D. E. Whitney, Henry Hoffman, A. W. Lydden, Walter F. Wieland, William V. Turcotte, A. J. Hayes, A. G. Trommaid, Clyde E. Parker, W. E. Haydon, A. L. Alexander, Bob Duerr, Henry P. Dunn, George E. Lowe, Louis Knudsen.

Mr. Zapffe stated:
The above named men constitute the Crow Wing Council, Boy Scouts of America. Most of you were present at the evening council was organized and were elected to the council at that time, and a few were added at the following meeting of the executive board when certain committees have been cited in the application for the charter and the men will officiate until the charter is renewed in January, 1924. The council is not yet in complete working order, but gradually it is picking up speed and gaining ground.

The 1923 summer camp closes Tuesday, July 31st. On Monday evening at 6:30 the boys will serve the council members a mulligan dinner as a special program, and I am taking this means to notify all of you, to extend the invitation and urge you to attend this party.

If you have an auto of your own, ask some of the other members to take you. All you need bring is an empty stomach. Let's Go. Oh Boy!

The Olympiad

Then followed the Olympiad in which first honors were awarded Supt. W. C. Cobb. He scored second in the standing broad jump, third in the hop, skip and jump, climbed the observation tower, jumped over the bonfire,

HALLAM RETURNS TO LAW PRACTICE

Minneapolis, July 31.—Oscar Hallam, former associate justice of the Minnesota supreme court and candidate for the republican nomination for United States senator, in the special election primary, has returned to the practice of law.

Mr. Hallam has joined with Kay Todd, Walter Fosness and Charles W. Sterling, in the law firm of Hallam, Todd, Fosness and Sterling. Formal announcement of the change will be made Wednesday.

When asked if he was through with politics, Mr. Hallam replied, "I am not talking politics, I am practicing law."

LIQUOR TESTS SHOW BIG POISON CONTENT

U. S. CHEMISTS HERE FIND LESS THAN 1 PER CENT OF RUM ANALYZED IS GENUINE

Minneapolis, July 31.—Less than one per cent of the liquor analyzed by government chemists in the federal prohibition office at Minneapolis has been found to be genuine, H. L. Duncan, northwest prohibition director, said yesterday, after testing 10,000 samples of contraband taken in raids.

"Liquor seized in Minnesota shows not a single instance where the stock was pure distilled goods, and the few genuine stocks were adulterated with redistilled hair tonic, alcoholic rub, and moonshine to stretch the quantity," Mr. Duncan said.

"Two sources of bootleg liquor provide the moonshine sold in this state. These are moonshine stills and restituted denatured alcohol. Our figures show indisputably that to take a drink of this stuff isn't a risk any more. It's a sure thing—the liquor is poison, severe illness, is the least of its consequences."

JULY CORN AT 90 CENTS A BUSHEL

(By United Press)
Chicago, July 31.—July corn sold for 90c a bushel, the highest price in three years, on the Chicago Board of Trade today.

and then for good measure turned a flip-flop.

A. A. Gierlet, in spite of his bulk and double rations at the table, hurried over the high jump and broad jump with the ease of a Paddock or Kraenzlein.

Carl Zapffe, who during the winter regaled us with stories on his prowess as an athlete throwing the hammer and doing other stunts, took three broad jumps and called it off on account of having eaten too much for dinner.

Dr. W. A. Erickson was good on the jump and scaled the rope 50 feet. Rev. O. S. Winther was awarded the prize as being the most graceful athlete. He seems to be in condition at all times and really was a factor in starting the Olympiad.

Art Lydden showed that he was still in good training after the World war experience and was good at the broad jump.

Somebody had to be in the spectator class and these included W. A. M. Johnstone, the Dispatch man who ate too much, E. W. Schmitt who naturally has too much avoidupois to do any 10 second 100 yard runs, E. J. Quinn who has enough running on his train, Albert O. Anderson who held the stick for the jump, George D. LaBar and Rev. E. A. Cooke who furnished applause when it was demanded, Dr. R. A. Belse who took one jump and quit, S. R. Adair who officiated as clerk of the course, Walter F. Wieland who was arbiter, Bob Duerr who did his heavy work in the cook tent, George E. Lowe who sat on the running board.

The council had its picture taken saluting the flag as the colors were lowered, the Birkeland studio official tower, jumped over the bonfire, ing.

MINISTER DROPS DEAD, DISROBING SAID PRETTY GIRL

PROMINENT DIVINE OF SUPERIOR, WIS., FOUND DEAD AT HOTEL, MILL CITY

GIRL, AN ATTRACTIVE BLONDE, WILL BE RELEASED BY POLICE

Minneapolis, July 31.—Just as he was disrobing, Rev. N. J. Lockren, of Superior, Wis., dropped dead in the Van Dyke hotel last midnight, Ruth Williams, pretty Minneapolis girl, told police today.

"He flirted with me, and induced me to come to the Van Dyke with him," the girl said in her statement to detectives.

The couple had registered as Mr. and Mrs. Larson, and occupied room 2 in the second-rate hostelry on Hennepin avenue.

A short time later the girl ran screaming from the room. Police were called. They found Lockren dead, apparently from heart trouble. The girl was held for questioning.

Rev. Lockren, 60 years old, had been pastor of the Concordia Norwegian Lutheran church at Superior for the last 18 years. He was ordained to the ministry in Illinois 28 years ago.

He leaves a widow in Superior and one daughter, Mrs. O. L. Solheim, Ely, Minn., married recently. Officials of the Norwegian Lutheran church of America are trying to induce Mrs. Lockren and her daughter to come to Minneapolis to claim the body.

The Williams girl, an attractive 22-year old blonde, slight and anemic, apparently lived at the Canasha apartments, Twelfth street and Harmon place. She was walking about last night when she met Rev. Lockren, she told police.

"We talked a while, and walked down the street. We went to the hotel, and as he was disrobing he gasped and started to the lavatory. He fell on the way. I ran out and called the clerk."

The coroner ordered an autopsy today. The girl will be released, police said, and no charge will be placed against her.

Rev. Lockren came to Minneapolis Sunday and registered at the Rogers hotel under his own name. He was still registered there and his luggage was found.

He was a member of many boards and committees of the Norwegian Lutheran church, and as secretary of the efficiency and economy commission of the church played a prominent part in the national convention in St. Paul last month. He was a member of the board of directors of the Deaconess hospital, Chicago. Officials of the church said it was not unusual for Rev. Lockren to be in the Twin Cities since he came here frequently to meet with committees and boards of the church.

The unusual circumstances of his death shocked fellow churchmen and associates.

SENATOR UNDERWOOD HAS HAT IN THE RING

(By United Press)
Montgomery, Ala., July 31.—Senator Oscar W. Underwood, speaking before members of the Alabama legislature here today, declared he was willing to become a candidate for the democratic presidential nomination if the people of the state want him to do so and will send delegates to the national convention instructed to vote for him.

"My hat is in the ring if the people of Alabama wish it," said Underwood.

"COUNCIL DIDN'T EAT ANY MORE THAN THE BOYS HERE" SAID SCOUTMASTER STIMBLE

CAMP INSPECTED AFTER WHICH COUNCIL HAD AN OLYMPIC ATHLETIC CONTEST

The Boy Scout Council of Crow Wing county on Monday evening enjoyed what its members said was the finest mulligan dinner ever served and the cook, Miss Ella Newgard, was voted the best on earth and heard every man on the council sound her praises.

Here is the menu discussed on the banks of North Long lake: Soup, celery, corned beef, veal, cabbage, beans, tomatoes, coffee, cup cakes, muffins, ice cream, cake with an inch layer of frosting.

It was not a 100per cent attendance of the council, and the percentage lacking will regret missing that dinner. Grace was said by Rev. E. A. Cooke. Assisting in serving the dinner were Mrs. Arthur L. Koop and Miss Maude Williams, and they had supervision over the corps of Boy Scouts who did their duty like trained waiters. Assistant chef was Bob Duerr and he comes in too for some of the glory of that wonderful dinner.

"And do you eat like this every day?" the whole council asked of Scoutmaster Stimble.

"We feed the boys the best we have and they eat every bit as much as you gentlemen," rejoined the scoutmaster.

Invitations Sent Out

The invitations to the dinner were sent out by President Carl Zapffe and addressed to these members of the council: Carl Zapffe, W. A. Erickson, W. A. M. Johnstone, John A. Hoffbauer, John F. Woodhead, Dr. C. G. Nordin, E. W. Schmitt, A. A. Gieriet, Rev. O. S. Winther, Supt. W. C. Cobb, E. J. Quinn, A. A. Anderson, W. H. Gemmell, Albert O. Anderson, Dr. J. A. Thabes, John Holvick, George D. LaBar, Rev. L. F. Strothman, George Tracy, Rev. E. A. Cooke, C. E. Lammon, Dr. R. A. Belse, S. R. Adair, D. E. Whitney, Henry Hoffman, A. W. Lydden, Walter F. Wieland, William V. Turcotte, A. J. Hayes, A. G. Trommald, Clyde E. Parker, W. E. Hayden, A. L. Alexander, Bob Duerr, Henry P. Dunn, George E. Lowe, Louis Knudsen.

Mr. Zapffe stated:

The above named men constitute the Crow Wing Council, Boy Scouts of America. Most of you were present the evening the council was organized and were elected to the council at that time, and a few were added at the following meeting of the executive board when certain committees were completed. The above names have been cited in the application for the charter and the men will officiate until the charter is renewed in January, 1924. The council is not yet in complete working order, but gradually it is picking up speed and gaining ground.

The 1923 summer camp closes Tuesday, July 31st. On Monday evening at 6:30 the boys will serve the council members a mulligan dinner as a special program, and I am taking this means to notify all of you, to extend the invitation and urge you to attend this party.

If you have an auto of your own, ask some of the other members to take you. All you need bring is an empty stomach. Let's Go. Oh Boy!

The Olympiad

Then followed the Olympiad in which first honors were awarded Supt. W. C. Cobb. He scored second in the standing broad jump, third in the hop, skip and jump, climbed the observation tower, jumped over the bonfire,

HALLAM RETURNS TO LAW PRACTICE

Minneapolis, July 31.—Oscar Hallam, former associate justice of the Minnesota supreme court and candidate for the republican nomination for United States senator, in the special election primary, has returned to the practice of law.

Mr. Hallam has joined with Kay Todd, Walter Fosness and Charles W. Sterling, in the law firm of Hallam, Todd, Fosness and Sterling. Formal announcement of the change will be made Wednesday.

When asked if he was through with politics, Mr. Hallam replied, "I am not talking politics, I am practicing law."

LIQUOR TESTS SHOW BIG POISON CONTENT

U. S. CHEMISTS HERE FIND LESS THAN 1 PER CENT OF RUM ANALYZED IS GENUINE

Minneapolis, July 31.—Less than one per cent of the liquor analyzed by government chemists in the federal prohibition office at Minneapolis has been found to be genuine, H. L. Duncan, northwest prohibition director, said yesterday, after testing 10,000 samples of contraband taken in raids.

"Liquor seized in Minnesota shows not a single instance where the stock was pure distilled goods, and the few genuine stocks were adulterated with redistilled hair tonic, alcoholic rub, and moonshine to stretch the quantity," Mr. Duncan said.

"Two sources of bootleg liquor provide the moonshine sold in this state. These are moonshine stills and restilled denatured alcohol. Our figures show indisputably that to take a drink of this stuff isn't a risk any more. It's a sure thing—the liquor is poison, severe illness, is the least of its consequences."

JULY CORN AT 90 CENTS A BUSHEL

(By United Press)
Chicago, July 31.—July corn sold for 90c a bushel, the highest price in three years, on the Chicago Board of Trade today.

and then for good measure turned a flip-flop.

A. A. Gieriet, in spite of his bulk and double rations at the table, hurled over the high jump and broad jump with the ease of a Paddock or Kraenzlein.

Carl Zapffe, who during the winter regaled us with stories on his prowess as an athlete throwing the hammer and doing other stunts, took three broad jumps and called it off on account of having eaten too much for dinner.

Dr. W. A. Erickson was good on the jump and scaled the rope 50 feet.

Rev. O. S. Winther was awarded the prize as being the most graceful athlete. He seems to be in condition at all times and really was a factor in starting the Olympiad.

Art Lydden showed that he was still in good training after the World war experience and was good at the broad jump.

Somebody had to be in the spectator class and these included W. A. M. Johnstone, the Dispatch man who ate too much, E. W. Schmitt who naturally has too much avoirdupois to do any 10 second 100 yard runs, E. J. Quinn who has enough running on his train, Albert O. Anderson who held the stick for the jump, George D. LaBar and Rev. E. A. Cooke who furnished applause when it was demanded, Dr. R. A. Belse who took one jump and quit, S. R. Adair who officiated as clerk of the course, Walter F. Wieland who was arbiter, Bob Duerr who did his heavy work in the cook tent, George E. Lowe who sat on the running board.

The council had its picture taken saluting the flag as the colors were lowered, the Birkeland studio officiating.

The council had its picture taken saluting the flag as the colors were lowered, the Birkeland studio officiating.

MINISTER DROPS DEAD, DISROBING SAID PRETTY GIRL

PROMINENT DIVINE OF SUPERIOR, WIS., FOUND DEAD AT HOTEL, MILL CITY

GIRL, AN ATTRACTIVE BLONDE, WILL BE RELEASED BY POLICE

Minneapolis, July 31.—Just as he was disrobing, Rev. N. J. Lockren, of Superior, Wis., dropped dead in the Van Dyke hotel last midnight, Ruth Williams, pretty Minneapolis girl, told police today.

"He flirted with me, and induced me to come to the Van Dyke with him," the girl said in her statement to detectives.

The couple had registered as Mr. and Mrs. Larson, and occupied room 2 in the second-rate hostelry on Hennepin avenue.

A short time later the girl ran screaming from the room. Police were called. They found Lockren dead, apparently from heart trouble. The girl was held for questioning.

Rev. Lockren, 60 years old, had been pastor of the Concordia Norwegian Lutheran church at Superior for the last 18 years. He was ordained to the ministry in Illinois 28 years ago.

He leaves a widow in Superior and one daughter, Mrs. O. L. Solheim, Ely, Minn., married recently. Officials of the Norwegian Lutheran church of America are trying to induce Mrs. Lockren and her daughter to come to Minneapolis to claim the body.

The Williams girl, an attractive 22-year-old blonde, slight and anemic, apparently lived at the Canasha apartments, Twelfth street and Harmon place. She was walking about last night when she met Rev. Lockren, she told police.

"We talked a while, and walked down the street. We went to the hotel, and as he was disrobing he gasped and started to the lavatory. He fell on the way. I ran out and called the clerk."

The coroner ordered an autopsy today. The girl will be released, police said, and no charge will be placed against her.

Rev. Lockren came to Minneapolis Sunday and registered at the Rogers hotel under his own name. He was still registered there and his luggage was found.

He was a member of many boards and committees of the Norwegian Lutheran church, and as secretary of the efficiency and economy commission of the church played a prominent part in the national convention in St. Paul last month. He was a member of the board of directors of the Deaconess hospital, Chicago.

Officials of the church said it was not unusual for Rev. Lockren to be in the Twin Cities since he came here frequently to meet with committees and boards of the church.

The unusual circumstances of his death shocked fellow churchmen and associates.

SENATOR UNDERWOOD HAS HAT IN THE RING

(By United Press)

Montgomery, Ala., July 31.—Senator Oscar W. Underwood, speaking before members of the Alabama legislature here today, declared he was willing to become a candidate for the democratic presidential nomination if the people of the state want him to do so and will send delegates to the national convention instructed to vote for him.

"My hat is in the ring if the people of Alabama wish it," said Underwood.

Crops in the central part of North Dakota they report as being poor, but in the Red River valley the prospects are good for an average yield.

UNIONS OF WORLD ARE GROUPING

(By United Press)

Geneva, July 31.—A fresh world-wide movement for the amalgamation of industrial unions into strong national organizations is now under way, according to the latest reports to the International Labor Bureau from leading countries of the world.

In the United States this grouping tendency is finding expression in the efforts of the United Cloth Hat and Cap Makers' Union towards bringing together all organized workers in the clothing industry. The total membership of the organizations concerned is estimated at 400,000, and it is hoped to weld them all into one gigantic, national organization.

The Amalgamated Clothing Workers have already adhered to the new project and other unions are expected to give their adhesion shortly. As yet it has not been decided whether the big combined organization would take the form of complete fusion or merely of federation of the various organizations.

In Norway the Christiania trades congress has adopted an entirely new plan for the reorganization and grouping of trade unions. These are all to be grouped according to the industry and the local councils of trade unions, which include both the existing local trade union and the shop councils, are to have greatly increased powers.

In accordance with this general decision, all the unions in the building workers' trades, such as masons, bricklayers, carpenters, painters, woodworkers, etc., have asked the Federation of Trade Unions to draw up a

scheme for a building union to include all organizations connected with this industry.

In Italy several new national organizations are being formed. One of these, called the *Corporazione Nazionale dell'Impiego* (National Corporation of Salaried Employees) has just been created and is divided into five sections: civil servants, employees in charitable and public relief institutions, bank employees, insurance employees, and commercial employees.

The organization already has 100,000 members. It aims at giving due regard to individual ability by combating the excesses of the principle of productive equality, by helping the more energetic, intelligent and cultivated elements and by collaborating with the managements of public administrations and businesses to increase the efficiency of methods of work.

The national conference of the managing committees of the Federation of Trade Unions of Czechoslovakia has also adopted a resolution advocating the amalgamation of federations in kindred industries.

As a result of this resolution one such amalgamation has already been formed, the Federation of Bohemian Watermen, the Prague Union of Sailors and the Sailors of Bratislava having combined into the single organization of the Federation of Czechoslovakia Watermen and Sailors.

The same tendency is also being manifested in nearly all of the industrial countries.

The result of this, either for good or for evil, according to the International Labor Bureau, will be a vast increase in strength of organized labor. With all of the various unions engaged in the same line of industry combined into a single organization, a degree of power will be exercised not only in the matter of strikes, but in all matters of policy that will greatly exceed that of the present single national unions.

Woman First Entrant in St. Louis Air Race

(By United Press)

St. Louis, July 31.—Officials of the St. Louis Air Board, in charge of the International Air Races of 1923, to be held at St. Louis Field, October 1, 2 and 3, have announced receipt of the first of more than 250 entries expected in the eight events. It was from Mrs. Bertha Dale Horchem, of Ransom, Kansas, who, in a trial at St. Louis Field, July 5, reached an altitude of 16,300 feet, being the highest flight any woman has ever made.

Mrs. Horchem will compete in the "On to St. Louis Race," for which the St. Louis Chamber of Commerce is offering a valuable trophy in addition to the cash prize of \$1,000.

In this race, which is open to civilians only, planes will be flown from all sections of the country to St. Louis, points being awarded on the speed, the distance, and the number of passengers carried, as well as the horsepower of the engines.

Last year, in the similar "On to Detroit Race" more than 100 pilots from all over the United States competed in this specific race. The winner of this Detroit race was Walter H. Beach of Wichita, Kansas, who took first prize in a Laird "Swallow." It is a coincidence that Mrs. Horchem flies this same type of airplane.

Stomach Trouble

Adjustment fits the stomach for the reception and natural disposition of natural food. That is far better than trying by devious and rather uncertain ways to fit the food to the stomach. Under Chiropractic adjustments the functions of digestion and assimilation are conducted by Nature. The result is natural, viz., healthy action of the processes. See your Chiropractor. Consultation, spinal analysis and booklets free.

**HARDING GRAVELY ILL.
FIGHTING FOR LIFE**

(Continued From Page 1)

case was clearly serious, but not grave, and that if physicians used the word grave it would be advisedly, and would indicate a distinct turn for the worse.

Less than two hours later Sawyer signed his name to the bulletin announcing that the president's condition was grave.

Presidential Party in Gloom

The effect of this announcement was to plunge the presidential party into deep fear. This was hastened by the reference to the fact that the president was "temperamentally" well adapted to fighting off infection. Nothing was said as to his physical equipment for the battle with death, for his doctors knew he had practically exhausted his physical resistance. That was apparent when at 5:30 p. m. an examination showed a drop in temperature accompanied by a sharp increased pulse and respiration.

Ordinarily the pulse and respiration would have been increased together with the temperature. The fact that the temperature went down indicated extremely low resistance powers. It was obvious then that the danger of pneumonia inflammation was increasing.

Then the x-ray examination confirmed their apprehensions.

CONSULTATION**HELD AT 9 A. M.**

San Francisco, July 31, 9:10 a. m.—President Harding's physicians, who had promised an official statement of the president's condition at 9 a. m. were still in consultation at this time. Secretary Hoover was calling at the presidential suite.

PRESIDENT HAD**GOOD NIGHT'S REST**

San Francisco, July 31.—President Harding is better this morning. He got a good night's rest—the best since he became ill—causing his personal physician, Dr. Charles Sawyer, to issue an optimistic statement on the president's condition after the unfavorable developments of last evening.

Sawyer was so relieved over the president's improvement that he did not wait for the morning consultation of specialists but passed the word of cheer on to the nation immediately after he had seen Mr. Harding at 8 a. m.

Several hours of restful sleep apparently had strengthened the president in the fight of his system to throw off both pneumonia and ptomaine poisoning.

"His condition seems to warrant my statement that we are now about to have 'clearer sailing,' was the cheerful note in Sawyer's statement.

Two official statements will be issued today on Mr. Harding's condition, Dr. Sawyer said, one at 9 a. m. and one at 4 p. m.

CHURCHES OFFERING**PRAYER FOR HARDING**

Washington, July 31.—The churches of Washington will offer prayer for the recovery of President Harding.

President Harding's church, the Calvary Baptist, will hold special prayer services for his recovery.

Dr. A. F. Anderson, assistant pastor of Calvary Baptist, in the absence of Dr. W. S. Abernathy, now in Europe, said today he would call special prayer services tonight if the president's condition did not improve.

DR. HUBERT WORK**GIVES A STATEMENT**

San Francisco, July 31, 7:40 a. m.—"President Harding's symptoms are better," said Dr. Hubert Work when he came out of the presidential suite at this hour. Work said an official bulletin would be issued at 9 a. m., coast time.

PRESIDENT'S CONDITION**IS MOST UNFAVORABLE**

Marion, O., July 31.—"The president's condition is most unfavorable," said a telegram today from Dr. C. E. Sawyer to President Harding's father, Dr. George T. Harding, of Marion.

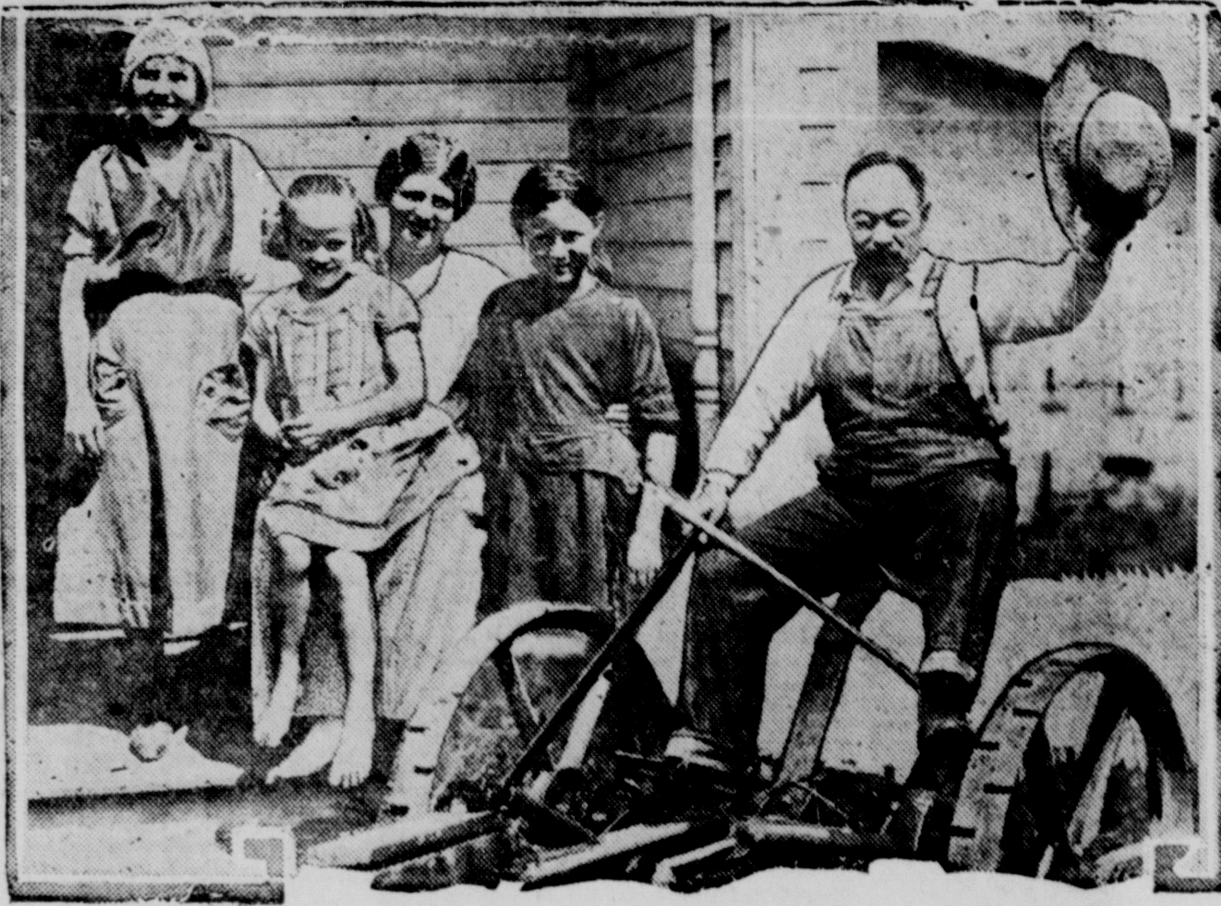

Dr. Harding, now in his eightieth year, does not plan to go to his son's bedside.

"Bulletins from Warren indicate the crisis will have been passed before I can reach San Francisco," the aged father said.

SLIGHTLY EASIER**FEELING DEVELOPS**

San Francisco, July 31, 7:05 a. m., coast time—Six hours without word from President Harding's sick-room ended at 7 a. m. today and gave rise to a slightly easier feeling among those awaiting news of the president's condition.

This feeling was strengthened a

Back on the Farm With the Magnus Johnsons

Senator Magnus Johnson, successful farmer-labor candidate from Minnesota, seated on his mower. Notice that the success of the father and husband has brought a wide grin to the faces of the female members of the family.

little when an attendant came out of the sick chamber and secured copies of morning newspapers said to be for the president's perusal, a little before 7 a. m.

**PRESIDENT CONTINUES
CHEERFUL, OPTIMISTIC**

Palace Hotel, San Francisco, July 31.—President Harding has passed a fairly comfortable night. He told his physicians this morning he was "feeling better and less exhausted" the official bulletin on the chief executive's condition issued at 10 a. m. declared.

The bulletin was more optimistic than the one issued yesterday afternoon and last evening.

President Harding, it was learned, went to sleep at 10:30 last night, and slept until at least midnight, when he awoke, but soon was asleep again, remaining asleep until approximately 6 a. m. today. At that time he awakened and asked for the morning papers.

It was understood that this sleep was particularly restful and was the first real sleep he had had since his illness. He did not toss in his bed, and his rest was not disturbed in other ways.

The president, it was learned, has continued cheerful at all times and has chatted with his physicians whenever they came into his room. He is known to have joked with them over his own illness, which has apparently in no way been permitted to depress his spirits.

This morning's official statement, which followed the less formal announcement of Dr. C. E. Sawyer that the president had comfortable night and was improved, helped greatly to relieve the strain of the night, ending fears that pneumonia infection might become more serious.

The pneumonia areas revealed in last night's statement have not spread, today's statement said.

The temperature was 100 at 9 a. m. today, against 100.6 at 5:10 p. m. yesterday and 101 at 9 a. m.

yesterday.

Respiration was 40 this morning, against 33 at 9 a. m. yesterday and 44 yesterday evening.

The pulse was 120 this morning, against 118 yesterday morning and 125 early last evening.

"Definitely improved" was the description of the heart action in the formal statement.

The president was reported as taking nourishment regularly.

The bulletin was signed by Dr. Charles E. Sawyer and his four associated physicians—Doctors Ray Lyman Wilbur, C. M. Cooper, Joel T. Boone, and Hubert Work.

**PRIVATE SECRETARY
GOES TO LOS ANGELES**

San Francisco, July 31.—Indications that members of the president's party consider Mr. Harding greatly improved were seen today in the announcement that George Christiar, private secretary to the executive, will leave tomorrow night for Los Angeles.

**VICE PRESIDENT
GETS BULLETINS**

Plymouth, Vt., July 31.—Vice-President Calvin Coolidge walked through the village and to the only telephone in the country store here shortly before noon today to receive the latest reports on the condition of President Harding, furnished him by the United Press.

The vice-president was greatly pleased at the news contained in the statement from General Sawyer, in which the president's physicians told of Mr. Harding having shown improvement after a good night's rest. "That is extremely gratifying," the vice president said.

TUESDAY, JULY 31, 1923

GAMBLING IN GRAIN

SENATOR-ELECT MAGNUS JOHNSON will carry with him the goodwill of the public at large when he asks that a sworn certificate of ownership be delivered within a reasonable time after a seller has offered grain on the market. The public is not sensitive over plunges in stocks on the market for the purpose of realizing a quick gain, but the American public is sensitive about gambling in grain and will be ready to second a demand that a means be found for checking the iniquitous custom of short selling which dumps futures on the market that are not covered by grain actually in the possession of the one selling.

Whatever advantage there may be in this to the men who frequent the exchange it is certain that it is of considerable disadvantage to the grower of the grain and to the ultimate consumer. And in this age, when a more sensible attitude is taken to the limitation of individual freedom when the exercise of such freedom adversely affects the interests of the majority, it will be widely conceded that there is little justification for a procedure that is nothing other than gambling in the foodstuffs of the people.

There is no valid reason why the interests of a comparatively few short sellers should damage the welfare of the producer, and a strong demand will be made that the producer be given more consideration than those who seek the control of the price of the produce to their own advantage and the producer's disadvantage. It may not be possible to determine the price of grain on the Liverpool exchange; it may not be wise for the government to go into the grain exchange business; there may be objections to subsidizing the farmers, but, irrespective of these, some of which the government might do if it would and some of which it could do if it so willed, there are things that can be adjusted to the farmer's advantage which will not incommode the public.

Senator-elect Johnson has called attention to one of these in a letter to Secretary of Agriculture Wallace, and the public will agree that there is no reason why at this time, when the farmers are facing disaster or, for that matter, at any other time, a few men should force down prices by selling millions of bushels of grain that are not in the market at all because when they sell they do not own the grain. The methods of the grain exchange are neither highly ethical, intelligently useful nor practically helpful; and ethics, intelligence and efficiency in selling and distributing grain, will raise the price paid to the producer and lower the price paid by the consumer.

SENATOR HIRAM JOHNSON SPEAKS

SENATOR HIRAM JOHNSON of California has a large following in the United States. There are thousands, possibly millions, who are ready to accept his opinion and to borrow his advice. Before the republican convention of 1920 he was considered a strong candidate for the nomination and his prestige has not been lowered since that time. His relation to Colonel Roosevelt, in the progressive party, gathered around him many of the late Colonel's progressive admirers who are still loyal to the man who was the candidate for the vice presidency on the progressive ticket in 1912.

Upon returning from Europe Senator Johnson was banqueted in New York and expressed himself relative to both foreign and domestic affairs. He has not changed front as a result of his European travel but is confirmed in his conviction that America has plenty to do to attend to her domestic problems without seeking involvement in Europe's affairs. The senator does not seem to be willing to concede that the motives that prompt the nations of Europe to invite America into a participation in their affairs are other than selfish. He affirms that they do not seek our advice but rather our money and our men.

Senator Johnson demands that our foreign policy be settled at the polls. Such a demand is in line with the insistence that where the people govern themselves the people should determine all important issues whether they know anything about them or not. But prejudices often determine opinions, ancient grudges are reflected in contemporary decisions, and ignorance of world movements leads to false conclusions. An instructed public might decide wisely, but who can promise that in America, where there are so many different nationalities, so many who are uneducated, in fact, illiterate, the decision of the people at the polls would be based on wisdom gained through a true knowledge of the facts. With things as they are today the demagogue would make a stronger appeal than the statesman.

DIRECTOR OF CANADIAN RAILROADS FAVORS CANAL

AMERICANS are interested in Sir Henry Worth Thornton's opinion on questions related to transportation. They are interested because they feel a strong personal attachment to a man who learned to operate railroads in the United States, whose ability led to his call to England to manage the affairs of an English railroad and to give such signal service to the British people that he was knighted, and who last year was invited to assume the difficult task of putting the Canadian National railroads on their feet.

There are few men better qualified than Sir Henry to speak on transportation problems and facilities and when he states that "Unlimited prosperity awaits the United States and Canada both in commercial lines and national growth providing the deep waterway is made a reality instead of a discussion as is now the situation." Americans will be more than ever convinced of the value of the proposed canal.

The real significance of the statement, however, lies in the fact that it was made by the director of the Canadian railroads who is acting under the Canadian government, and while the speaker may be without authority to pledge the Canadian government to proceed with this project at an early date, as the government's adviser on matters of transportation he will be able to bring influence to bear upon the government favorable to building the waterway.

What this means to the Northwest cannot be estimated and all of the influence of leaders in Northwestern states should be directed towards securing an early initiation of the work of construction. The time has come to begin to make the waterway a reality instead of a discussion.

LABOR'S RIGHTS GUARANTEED

EMPHASIS is placed on the fact that in America any man has the right to work. Such a statement, accepted without investigation of the conditions that may interfere with the exercise of this right, may lead to an erroneous conclusion as to the value of this right. Last summer Attorney General Harry Daugherty defended this principle, and there were many who felt that his defense did not take into consideration all of the facts, when he applied for and secured an injunction restraining the shopmen from doing certain things that in normal times are quite legitimate.

Attorney General Daugherty has now come out strongly for another right of labor, and his insistence upon this right will be just as objectionable to certain interests in the United States as his injunction was to the shopmen, who felt that it robbed them of certain inalienable rights. Attorney General Daugherty has affirmed that "a boycott against labor is as indefensible as a boycott against industry" and that "the right of the worker to organize into trade unions for lawful purposes is as fundamental in America as the right to vote—and as well supported by law."

The position taken by the Attorney General must be gratifying to those who know that a technical right may mean little unless there is an organized effort to defend it. Freedom's battle is never won and rights are never secure, unless those who value freedom and appreciate rights are organized to preserve their freedom and protect their rights.

Theoretically it is true that a man has the right to work, but in an industrial age the right to work is not worth much if the workers are unorganized against the employers who may organize to withhold the job. The quick retort that the worker may find work elsewhere doesn't carry much weight with those who know that the worker is often without the means to provide for his family while he seeks a job or the cost of transportation needed to carry him where the job may be found. The ability to wait must be taken into consideration when the right to work is considered, and because the employer's ability to wait is greater than the worker's, unless the workers are organized and their rights defended they may have technical rights that are not actually operating for their advantage.

Attorney General Daugherty is interpreting legislation as it is, and in deciding to apply it to interests in California that are discriminating against union labor he is defending the right to organize as, last year, he defended the right of employers to give work and the right of men to take the jobs.

This may be stated with confidence: Whenever there is a lot said about rights there is something wrong somewhere. When rights are recognized they are not talked about. They don't need announcing; they are.

FROM what we have seen of the editors who are visiting us they are well behaved.

PAN PROPERTY TO BE SOLD THURSDAY

COURT TO RECEIVE BIDS FROM RECEIVER ON \$3,000,000 PLANT AT ST. CLOUD

St. Cloud, Minn., July 31—An echo of the famous Pan Motor company mail fraud case will be heard in district court here Thursday, when the receiver for the company will present to the court bids for the company property here.

Receiver Edward E. Clark obtained an order from District Judge J. A. Roeser some time ago, directing him to receive sealed bids up to 10 a. m., August 1, when the bids will be opened. They are to be submitted to the court with the receiver's recommendation the next day.

If the bids for the property, which on the books is valued at \$3,000,000, are not satisfactory, the court retains the privilege to order the advertising for further bids.

Property Offered in 3 Parcels
 The Pan Motor property will be offered in three parcels. The first includes the assembly plant and experimental building, together with machinery and equipment and the real estate it occupies.

The second parcel includes the real estate upon which are located the hammer shop, drop forge, power plant, heat treating plant, laboratory, forge office plan locker room, and certain spur trackage and other structures, and also the machinery and equipment in these buildings.

The third parcel includes 10.72 acres of land lying across the street from the main assembly plant.

History of the Pan Motor fiasco dates back to 1916, when Samuel C. Pandolfo, an insurance man, began preliminary organization work in New Mexico and Texas.

Pandolfo in Prison
 Pandolfo now is in the federal penitentiary at Leavenworth serving a 10 year sentence, imposed after his conviction on charges of using the mails to defraud.

With 12 other men, officers and promoters of the company, Pandolfo was indicted by a federal grand jury in Chicago in February, 1919. The company, organized as a Delaware corporation in January, 1917, was charged with selling \$7,000,000 worth of stock to 60,000 persons in all parts of the country.

On December 6, 1919, Pandolfo was found guilty of misuse of the mails on four counts by a federal court jury in Chicago, and his 12 associates were acquitted. Judge K. M. Landis, who presided at the trial sentenced Pandolfo to 10 years in prison and fined him \$4,000.

Various appeals were taken unsuccessfully by Pandolfo. On August 21, 1922 the United States circuit court of appeals at Chicago affirmed

the sentence, and on January 25, 1923, denied him a rehearing.

The United States supreme court, on March 12, 1923, refused to review the case, and Pandolfo surrendered to the United States marshal in Chicago April 7, 1923, to commence serving his sentence.

FURNITURE PRICES WILL REMAIN UP, DEALERS ADMIT

Chicago, July 31 (United Press)—Furniture of the Tudor, Queen Ann and Louis XVI periods will continue to hold popular favor for American bedrooms, while that the Italian and Grecian periods will be used for living rooms, according to the Chicago Furniture Manufacturers Association.

The new year will bring out no changes in American furniture; no outstanding features are evident, as at most exhibitions in the past. Creation of "freak" furniture is also on the decline. The only contribution along this line is a "King Tut" table, made of mahogany and with Egyptian lines and legs representing old Egyptian vases.

No decrease from the present price of furniture is in sight. The cost of plate glass and other materials caused an increase ranging in some lines as high as 25 per cent last

GAMBLING IN GRAIN

SENATOR-ELECT MAGNUS JOHNSON will carry with him the goodwill of the public at large when he asks that a sworn certificate of ownership be delivered within a reasonable time after a seller has offered grain on the market. The public is not sensitive over plunges in stocks on the market for the purpose of realizing a quick gain, but the American public is sensitive about gambling in grain and will be ready to second a demand that a means be found for checking the iniquitous custom of short selling which dumps futures on the market that are not covered by grain actually in the possession of the one selling.

Whatever advantage there may be in this to the men who frequent the exchange it is certain that it is of considerable disadvantage to the grower of the grain and to the ultimate consumer. And in this age, when a more sensible attitude is taken to the limitation of individual freedom when the exercise of such freedom adversely affects the interests of the majority, it will be widely conceded that there is little justification for a procedure that is nothing other than gambling in the foodstuffs of the people.

There is no valid reason why the interests of a comparatively few short sellers should damage the welfare of the producer, and a strong demand will be made that the producer be given more consideration than those who seek the control of the price of the produce to their own advantage and the producer's disadvantage. It may not be possible to determine the price of grain on the Liverpool exchange; it may not be wise for the government to go into the grain exchange business; there may be objections to subsidizing the farmers, but, irrespective of these, some of which the government might do if it would and some of which it could do if it so willed, there are things that can be adjusted to the farmer's advantage which will not incommode the public.

Senator-elect Johnson has called attention to one of these in a letter to Secretary of Agriculture Wallace, and the public will agree that there is no reason why at this time, when the farmers are facing disaster or, for that matter, at any other time, a few men should force down prices by selling millions of bushels of grain that are not in the market at all because when they sell they do not own the grain. The methods of the grain exchange are neither highly ethical, intelligently useful nor practically helpful; and ethics, intelligence and efficiency in selling and distributing grain, will raise the price paid to the producer and lower the price paid by the consumer.

SENATOR HIRAM JOHNSON SPEAKS

SENATOR HIRAM JOHNSON of California has a large following in the United States. There are thousands, possibly millions, who are ready to accept his opinion and to borrow his advice. Before the republican convention of 1920 he was considered a strong candidate for the nomination and his prestige has not been lowered since that time. His relation to Colonel Roosevelt, in the progressive party, gathered around him many of the late Colonel's progressive admirers who are still loyal to the man who was the candidate for the vice presidency on the progressive ticket in 1912.

Upon returning from Europe Senator Johnson was banqueted in New York and expressed himself relative to both foreign and domestic affairs. He has not changed front as a result of his European travel but is confirmed in his conviction that America has plenty to do to attend to her domestic problems without seeking involvement in Europe's affairs. The senator does not seem to be willing to concede that the motives that prompt the nations of Europe to invite America into a participation in their affairs are other than selfish. 'ALFALFA AND SOILS DAY'

County Agent E. G. Roth Arranges a Most Comprehensive Program for the Day

TO BE HELD FRIDAY, AUGUST 10

Dean Coffey, Dr. Alway and E. G. Roth to Give Lectures and Assist in Demonstration

The program for the "Alfalfa and Soils Day" which will be held on Friday, August 10th, at the state experimental station at Crow Wing, has been definitely arranged, and promises much for all who attend. It will be in charge of experts from the state agricultural college and the University of Minnesota.

This program starts at 1:30 p. m. and as announced by County Agent, E. G. Roth, will be as follows:

1. Visiting the various alfalfa demonstration plots showing combinations and results of fertilizer and marl treatment.

2. Visiting sweet clover and soy bean plots.

3. Visit pits showing depth of alfalfa roots in the soil. Also showing the bacteria nodules.

4. Demonstration of preparing land for alfalfa including marl application both with marl spreader and manure spreader, inoculation of seed, drilling and covering.

5. The University of Minnesota will have its marl excavator with drag line operated by a tractor at the Lawrence Koering farm, one mile south of Crow Wing.

6. Visits will be made to nearby alfalfa fields showing uses of marl on sour soils, alfalfa seeded with and without nurse crops.

7. Dean Coffey, chief of the agricultural college, Dr. F. J. Alway, chief of the soils division, University of Minnesota, and E. G. Roth, Crow Wing County Agent, will give lectures and assist in putting on the demonstrations.

Every farmer in the county is interested in dairying. This program will assist the dairyman in making a success of his work. A large acreage of alfalfa was planted this year, and is making an excellent showing, so that it is expected there will be much more planted next season.

Alfalfa and the dairy cow work hand in hand, the success of the one depending upon the success of the other. This is the reason for starting an alfalfa and soils day in this county, and it is hoped that every farmer will avail himself of this opportunity.

Business men, too, are asked to cooperate in this movement. They are invited to be present at the program and to lend their encouragement to the farmers of the county in raising the standards of their dairy herds and in solving their feeding problems.

IN MUNICIPAL COURT

One Transient Arraigned on the Charge of Taking Car From Clarence Hanson

In municipal court Tuesday morning Jack O'Brien was arraigned charged with unlawfully taking an aut mobile, and his case continued until Friday afternoon at 2 o'clock.

It was discovered that the defendant's real name is Harold W. Finnigan, and that he is an escaped inmate of one of the state institutions in Wisconsin. A telegram from the officials of that institution stated that he escaped some three weeks ago.

Finnigan is charged with appropriating a Dodge roadster belonging to Clarence Hanson, on Monday night, July 23rd. Hanson had just purchased the car, and had not as yet built a garage for it.

Finnigan was picked up in St. Cloud, when he stopped to have some repairs made on the car, and was held there by the police until the authorities from this county arrived to bring him back to Brainerd.

MISS HEIMAN, INVESTIGATOR

Exceptions Stated by Recent Law Enacted by Last Legislature Also Given

Miss Theresa Heiman, investigator of the Division of Women and Children, Industrial Commission of Minnesota, visited Brainerd today and inspected conditions, giving the Dispatch this interview:

"The new hour law passed at the last session of the legislature which went into effect July 1, 1923, provides that no woman shall be allowed to work at any occupation more than 9½ hours in any one day and 54 hours in any one week, with the exception of nurses engaged in the care of sick, women engaged in domestic service and telephone operators in towns of less than 1,500 inhabitants.

"The one day of rest law also passed at the last session of the legislature provides that all employees shall have one day of complete rest in seven with certain exceptions including women working in hotels and cafes.

"The Child Labor Law regulates the working hours for boys and girls under 16 years of age to not more than 8 hours in any one day and 48 hours in any one week. Children under 16 years of age may not be employed at any occupation before seven o'clock in the morning nor after seven o'clock at night.

"The minimum wage in cities of 5,000 or more population is \$12.00 for a week of from 36 to 48 hours and 25¢ for each additional hour making the wage \$13.50 for a 54 hour week, the limit fixed by the law which went into effect July 1, 1923. Learners may be paid at a lesser wage as fixed by Wage Order No. 12.

"The minimum wage in towns under 5,000 is \$10.25 for a week of from 36 to 48 hours and 21½¢ for each additional hour making the wage \$11.54 for a 54 hour week, the limit fixed by the law which went into effect July 1, 1923. Learners may be paid at a lesser wage as fixed by Wage Order No. 12."

Entertain at Rest Cottage

Friday at Rest Cottage, Gull Lake. Mr. and Mrs. E. P. Slipp entertained at the noon hour, the following guests being present, the Misses Whiteley of Brainerd, Master Robert and Miss Isabel Whiteley, Bisbee, Arizona, and the Misses Eleanor and Elizabeth Kelly, Grand Forks, North Dakota.

1st Baptist Aid

The Ladies Aid society of the First Baptist church will meet at the home of Mrs. A. E. Gustafson, 704 South Tenth street on Wednesday afternoon, August 1. A large attendance is desired. Visitors are always welcome.

Methodist Aid

The Methodist Ladies Aid will meet in the church on Wednesday afternoon at 3 o'clock, and will be entertained by Mrs. Edwin Anderson and Mrs. J. F. Cibazar. Visitors are always welcome.

Pelto-Kramer

Lawrence V. Pelto and Miss Pearl M. Kramer, both of Riverton, were married at the Methodist parsonage, Rev. E. A. Cooke officiating. The witnesses were Mr. and Mrs. Amos Maghan. The bride is a niece of Mrs. Maghan.

The Century Plant.

The report that a century plant blooms only once in a hundred years is probably due to the impatience of some of its admirers. In some parts of South America where it grows wild it blooms once in eight years, but when it has been transplanted into greenhouses under artificial conditions its blooming date is much prolonged.

CELEBRATE THEIR SILVER WEDDING

Mr. and Mrs. Hartell Honor Guests at Home of Their Son John Hartell

ARE GIVEN SILVER TEA SET

Bridal March Played, Musical Program Given, Delicious Luncheon Served

Mr. and Mrs. Joe Hartell celebrated their silver wedding anniversary on Monday evening, at the home of their son, John Hartell, 802 south Sixth street. The event was in the nature of a surprise party, some fifty guests being present.

During the evening a musical program was carried out. An orchestra composed of Mrs. Louis Johnson, violin, Mr. Johnson, piano, and R. L. McCormick, saxophone, rendered a number of selections and played the bridal march. Mrs. Louis Hohman sang.

Mr. and Mrs. Hartell were presented with a silver tea set, Louis Noggle making the presentation speech, to which both honor guests responded. A delicious luncheon was served late in the evening, followed by a real, old-time charivari.

Mr. and Mrs. Hartell received the congratulations of their many friends and best wishes for many years of happiness to come.

MARKET REPORT

(By United Press)

South St. Paul Livestock

South St. Paul, July 31.—Estimated receipts at the union stockyards today: Cattle, 2,200; calves, 2,300; hogs, 7,000; sheep 700; cars, 197.

Cattle—Beef steers, \$5 to \$11.25; cows and heifers, \$3 to \$9.50; canners and cutters, \$2 to \$3; butcher bulls, \$3.25 to \$4.25; veal calves, \$4 to \$9.25; stock feeding steers, \$2.50 to \$7.50.

Hogs—\$5.50 to \$7.25. Sheep—Lambs, \$7 to \$11.50; ewes, \$1 to \$6.50; wethers, \$3.75 to \$8; yearlings, \$7 to \$10.50; bucks, \$2 to \$3.

Minneapolis Cash Grain

Wheat—No. 1 Dark Northern \$1.08½ to \$1.33½; to arrive, \$1.08½. No. 1 Northern, \$1.07½ to \$1.13½; to arrive, \$1.07½.

Corn—No. 2 Yellow, 50¢ to 51¢. Oats—No. 3 White, 34½¢ to 36½¢; to arrive, 31½¢.

Barley—Choice, 56¢ to 58¢. Rye—No. 2, 59½¢; to arrive, 59¢. Flaxseed—Fancy, \$2.50½ to \$2.52½; to arrive, \$2.37½.

St. Paul Hay Market

Timothy—No. 1, \$16.50; No. 2, \$15; No. 3, \$10. Alfalfa—Standard, \$10; No. 1, \$22; No. 2, \$19. Clover Mixed—No. 1, \$14; No. 2, \$10. Midland Hay—No. 1, \$9; No. 2, \$7; No. 3, \$5.

Chicago Potato Market

Chicago, July 31.—Receipts 210 cars. Kansas and Missouri Cobblers, \$1.60 to \$1.75.

Cat Was Taking Music Lesson.

One morning while down in the basement I heard someone playing the piano. Knowing my daughter had left for school, I did not know what to think of it. It sounded like someone was trying to play that did not know how. I went upstairs to investigate, and on arriving I found the cat jumping around on the keys.—Chicago Journal.

Applies to Home, Too.

It is a good rule to endeavor hour by hour and week by week to learn to work hard. It is not well to take four minutes to do what you can accomplish in three. Learn to work intensively.—Charles W. Elliot.

WEATHER FINE FOR CANNING

Making Good Use of Market Conditions by Purchasing Many Peaches

ARE SELLING BY CARLOAD

Brainerd Fruit Co., Sells 1,254 Boxes of Peaches, California Kind, in Less Than Day

Housewives are finding weather conditions ideal for canning, and that they are making good use of the opportunity is shown by the number of peaches which have been sold today.

On Monday the Brainerd Fruit Co., advertised that a carload of Elberta peaches would arrive Tuesday. They came as per schedule, and by eleven o'clock Tuesday morning half of the carload had been sold.

To give an idea of what this means it might be stated that there are 1,254 boxes of peaches in a car, and 625 crates were sold in less than a half day. It is expected that the entire carload will be gone before evening.

These California peaches are of especially fine quality, according to A. C. Ebert, manager of the Brainerd Fruit Co., who recommends them very highly for canning purposes.

The California peach season is about three weeks early this year, and will, of course close about that much sooner than it does normally. While they can be had, the fruit company will receive its share and Brainerd housewives should place their orders with their grocers early.

There will be other peaches coming later in the season, says Mr. Ebert, but they will be from Washington, and are not of the high quality as the California Elbertas now being received.

Swedish Bethany Aid

The ladies aid of the Swedish Bethany church will hold an ice cream social on the church lawn this evening. Ice cream, cake and coffee will be served. A large number of tickets have already been sold, and a good attendance is anticipated. The public is cordially invited.

Baptist Mission Aid

The Baptist Mission Aid will meet Wednesday afternoon at Lum park. All members are requested to be present. A picnic lunch will be served.

NO FEAR OF EVIL resulting from change of diet, water or climate, concerns those who take on the short trip, summer vacation or long journey, **CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY** Ready for emergency - night or day.

'ALFALFA AND SOILS DAY'

County Agent E. G. Roth Arranges a Most Comprehensive Program for the Day

TO BE HELD FRIDAY, AUGUST 10

Dean Coffey, Dr. Alway and E. G. Roth to Give Lectures and Assist in Demonstration

The program for the "Alfalfa and Soils Day" which will be held on Friday, August 10th, at the state experimental station at Crow Wing, has been definitely arranged, and promises much for all who attend, it will be in charge of experts from the state agricultural college and the University of Minnesota.

This program starts at 1:30 p. m. and as announced by County Agent, E. G. Roth, will be as follows:

1. Visiting the various alfalfa demonstration plots showing combinations and results of fertilizer and marl treatment.

2. Visiting sweet clover and soy bean plots.

3. Visit pits showing depth of alfalfa roots in the soil. Also showing the bacteria nodules.

4. Demonstration of preparing land for alfalfa including marl application both with marl spreader and manure spreader, inoculation of seed, drilling and covering.

5. The University of Minnesota will have its marl excavator with drag line operated by a tractor at the Lawrence Koering farm, one mile south of Crow Wing.

6. Visits will be made to nearby alfalfa fields showing uses of marl on sour soils, alfalfa seeded with and without nurse crops.

7. Dean Coffey, chief of the agricultural college, Dr. F. J. Alway, chief of the soils division, University of Minnesota, and E. G. Roth, Crow Wing County Agent, will give lectures and assist in putting on the demonstrations.

Every farmer in the county is interested in dairying. This program will assist the dairyman in making a success of his work. A large acreage of alfalfa was planted this year, and is making an excellent showing, so that it is expected there will be much more planted next season.

Alfalfa and the dairy cow work hand in hand, the success of the one depending upon the success of the other. This is the reason for staging an alfalfa and soils day in this county, and it is hoped that every farmer will avail himself of this opportunity.

Business men, too, are asked to co-operate in this movement. They are invited to be present at the program and to lend their encouragement to the farmers of the county in raising the standards of their dairy herds and in solving their feeding problems.

IN MUNICIPAL COURT

One Transient Arraigned on the Charge of Taking Car From Clarence Hanson

In municipal court Tuesday morning Jack O'Brien was arraigned charged with unlawfully taking an aut mobile, and his case continued until Friday afternoon at 2 o'clock.

It was discovered that the defendant's real name is Harold W. Finnigan, and that he is an escaped inmate of one of the state institutions in Wisconsin. A telegram from the officials of that institution stated that he escaped some three weeks ago.

Finnigan is charged with appropriating a Dodge roadster belonging to Clarence Hanson, on Monday night, July 23rd. Hanson had just purchased the car, and had not as yet built a garage for it.

Finnigan was picked up in St. Cloud, when he stopped to have some repairs made on the car, and was held there by the police until the authorities from this county arrived to bring him back to Brainerd.

NEW HOUR LAW RECENTLY PASSED

Provides No Woman Shall Work More Than 9½ Hours in Day, 54 Hours in Week

MISS HEIMAN, INVESTIGATOR

Exceptions Stated by Recent Law Enacted by Last Legislature Also Given

Miss Theresa Heiman, investigator of the Division of Women and Children, Industrial Commission of Minnesota, visited Brainerd today and inspected conditions, giving the Dispatch this interview:

"The new hour law passed at the last session of the legislature which went into effect July 1, 1923, provides that no woman shall be allowed to work at any occupation more than 9½ hours in any one day and 54 hours in any one week, with the exception of nurses engaged in the care of sick, women engaged in domestic service and telephone operators in towns of less than 1,500 inhabitants.

"The one day of rest law also passed at the last session of the legislature provides that all employees shall have one day of complete rest in seven with certain exceptions including women working in hotels and cafes.

"The Child Labor Law regulates the working hours for boys and girls under 16 years of age to not more than 8 hours in any one day and 48 hours in any one week. Children under 16 years of age may not be employed at any occupation before seven o'clock in the morning nor after seven o'clock at night.

"The minimum wage in cities of 5,000 or more population is \$12.00 for a week of from 36 to 48 hours and 25¢ for each additional hour making the wage \$13.50 for a 54 hour week, the limit fixed by the law which went into effect July 1, 1923. Learners may be paid at a lesser wage as fixed by Wage Order No. 12.

"The minimum wage in towns under 5,000 is \$10.25 for a week of from 36 to 48 hours and 21½¢ for each additional hour making the wage \$11.54 for a 54 hour week, the limit fixed by the law which went into effect July 1, 1923. Learners may be paid at a lesser wage as fixed by Wage Order No. 12."

Entertain at Rest Cottage

Friday at Rest Cottage, Gull Lake, Mr. and Mrs. E. P. Slipp entertained at the noon hour, the following guests being present, the Misses Whiteley of Brainerd, Master Robert and Miss Isabel Whiteley, Bisbee, Arizona, and the Misses Eleanor and Elizabeth Kelly, Grand Forks, North Dakota.

SPORTS

By HENRY L. FARRELL
United Press Sports Editor

New York, July 31.—No art can be lost quicker through the lack of practice than boxing. No art is harder to get back than boxing, after a long layoff, in the opinion of Jack McAuliffe, the veteran undefeated lightweight champion.

His theory has been proved three times within the early summer months by Johnny Kilbane, Jimmy Wilde and Jack Dempsey.

Three champions went back into the ring after remaining idle for an average of about two years or more, and two of them suffered the penalty of losing their titles.

Kilbane and Wilde were knocked out, and Dempsey, while he retained his championship against Tommy Gibbons, lost a lot of prestige.

Kilbane blames the loss of the featherweight championship to Eugene Criqui on his long absence from the ring.

"I always watch the feet of my opponent and I knew that Criqui was starting a right-hand punch that proved to be the knockout. I saw it coming, but I felt positive that I was at least a foot out of range. I misjudged the distance and it hit me right on the jaw and knocked me out," Kilbane said.

"Had I boxed oftener and kept my eye tuned up for distance I could have evaded that punch," he said.

Jimmy Wilde, game little fighter and one of the best champions, remained out of the ring too long. He was knocked out by Pancho Villa and he lost the world's flyweight championship. He did not fight for two years after he was knocked out by Pete Herman in London, and time sapped all his punch and his resistance.

After Tommy Gibbons had stayed fifteen rounds with him in Shelby, Montana, Jack Dempsey replied to question asking for an explanation of his rather poor showing:

"There was nothing the matter with me, only I haven't been fighting enough."

The champion admitted that he didn't win by a knockout because: "I couldn't get a good shot at him."

Gibbons is one of the finest boxers in the world and he is a hard target for any fighter to find, but the Dempsey of Toledo and Jersey City would have crashed through the weaker Gibbons in fifteen rounds if the champion's timing and judgment of distance had not been thrown way off by lack of work.

Fairmont, July 31.—The St. James baseball team beat the Armstrongs, Iowa, nine, at Hands park, here yesterday, 2 to 1. Kintzi and Anderson were the St. James battery.

Perham Nine Wins

Perham, July 31.—The Perham baseball club defeated the Detroit aggregation here yesterday in a ragged game, 8 to 3.

Brig of Ayr is Saved.
Scotsmen all over the world will rejoice at the favorable conclusion of a movement which has strikingly evinced the hold of Robert Burns over the hearts of his fellow-countrymen. By the pressure of Scottish public opinion, the Ayr (Scotland) town council at last has been forced to abandon the proposed scheme to reclaim part of the bed of the River Ayr above the harbor between the Auld and New Brigs of Ayr. Some time ago, when the matter was first mooted, the proposals were widely discussed in the press as likely to interfere with the amenity of the Auld Brig of Ayr, immortalized by Robert Burns. On the recommendation, also, of the Ancient Board of Scotland, the government office of works has decided to include the Auld Brig in the list of national monuments. This means that the local authorities of Ayr cannot in the future, without giving notice, do anything in the way of demolishing, removing in whole or parts, structurally altering or making additions to the monument.

RENT THAT ROOM—CALL 74

100° in the Shade or 10° below Zero!

One hundred degrees in the shade or ten below zero, meat deliveries to your retailer go steadily on, so that you may be assured of just the kind and quality of meat that you desire.

No city is so far removed from live stock production that it cannot receive its regular supply of fresh meats.

Compare this with the meat supply of thirty or forty years ago. Summer weather then meant salt or pickled meats in the country, and a limited variety of fresh meats in most cities.

Refrigeration, developed by scientists, has made it possible for Swift & Company, and other packers, to prepare fresh meats and ship them long distances in refrigerator cars, so that today, without regard to heat or cold, meat reaches your dealer fresh, clean, and wholesome.

In addition to the fresh meats thus available, Swift & Company prepares a variety of tempting meats for hot weather:

Swift's Premium Cooked Ham, mild and sweet, smoked over hard wood fires, is always delicious.

Swift's Premium Frankfurts, from our modern sanitary kitchens, offer a choice blending of meats and spices.

Swift's Sausage Specialties and Swift's Dry Sausage, ready to serve, help lighten the housewife's summer task.

In addition to these, a score of other Summer Specialties are made available by Swift & Company's research and development work.

Our profit from all sources averages only a fraction of a cent a pound.

Swift & Company, U. S. A.

SPORTS

LONG LAYOFF BEATS MANY CHAMPIONS

By HENRY L. FARRELL
United Press Sports Editor

New York, July 31.—No art can be lost quicker than the lack of practice than boxing. No art is harder to get back than boxing, after a long layoff, in the opinion of Jack McAuliffe, the veteran undefeated lightweight champion.

His theory has been proved three times within the early summer months by Johnny Kilbane, Jimmy Wilde and Jack Dempsey.

Three champions went back into the ring after remaining idle for an average of about two years or more, and two of them suffered the penalty of losing their titles.

Kilbane and Wilde were knocked out, and Dempsey, while he retained his championship against Tommy Gibbons, lost a lot of prestige.

Kilbane blames the loss of the featherweight championship to Eugene Criqui on his long absence from the ring.

"I always watch the feet of my opponent and I knew that Criqui was starting a right-hand punch that proved to be the knockout. I saw it coming, but I felt positive that I was at least a foot out of range. I misjudged the distance and it hit me right on the jaw and knocked me out," Kilbane said.

"Had I boxed oftener and kept my eye tuned up for distance I could have evaded that punch," he said.

Jimmy Wilde, game little fighter and one of the best champions, remained out of the ring too long. He was knocked out by Pancho Villa and he lost the world's flyweight championship. He did not fight for two years after he was knocked out by Pete Herman in London, and time sapped all his punch and his resistance.

After Tommy Gibbons had stayed fifteen rounds with him in Shelby, Montana, Jack Dempsey replied to question asking for an explanation of his rather poor showing:

"There was nothing the matter with me, only I haven't been fighting enough."

The champion admitted that he didn't win by a knockout because: "I couldn't get a good shot at him."

Gibbons is one of the finest boxers in the world and he is a hard target for any fighter to find, but the Dempsey of Toledo and Jersey City would have crashed through the weaker Gibbons in fifteen rounds if the champion's timing and judgment of distance had not been thrown way off by lack of work.

200 START PLAY FOR WISCONSIN GOLF TITLE

Milwaukee, July 31.—Preliminary events of the Wisconsin Golf association annual tournament, the Pater-Filins and Yale cup events, were started off here today as more than 200 golfers from all sections of the state arrived to take part in the play for the state championship, now held by E. P. "Ned" Allis. The sky was clear and a hot sun was beating down on the Blue Mound Country club course as the players got started.

JIMMY JONES AS WELTERWEIGHT CHAMP

(By United Press)
New York, July 31.—The New York State Boxing commission today recognized Jimmy Jones, of Youngstown, Ohio, as the welterweight champion of the world. Jones beat Dave Shade in Boston last week on points. The New York commission previously had taken the title from Mickey Walker, rightful holder, and given it to Shade.

Risberg Breaks Up Game

Rochester, July 31.—A home run by Swede Risberg, pitcher, broke up 1 to 1 tie in the seventh inning and Rochester defeated St. Cloud in a game announced as being for the independent baseball championship of Minnesota, 2 to 1. About 2,000 fans witnessed the fracas.

Duluth Oarsmen Defend Crown at Baltimore

Duluth, July 31.—Duluth will bid for the 1924 National Association of Amateur Oarsmen's regatta. This regatta will be the Olympic tryouts and Duluth has been promised the vote of several clubs in the association.

With Julius H. Barnes of Duluth as chairman of the rowing committee for the Olympic tryouts, Duluth feels confident that the regatta will take place here next year.

Coaches Phil Moore and Lincoln Brown left for Baltimore today with 29 oarsmen to compete in this year's regatta. Duluth crews will defend the national championship held for 10 years.

LARGE STAKES UP FOR CIRCUIT AT READVILLE

Readville, Mass., July 31.—In the grand circuit trotting races to be held here the last week in August, the horse will race for purses totaling \$49,850, the largest amount put up at any track in this country so far this season, according to the announcement for the late closing entry here yesterday, by Secretary Ralph T. Millett.

Races Open at Aurora

Aurora, Ill., July 31.—The Fox River Valley Jockey club will open a two weeks running race meet today at its half mile track. Most of the horse colony that has been at Hawthorne for the last 25 days has been transferred to Aurora.
